Dear Sir

DISPOSAL OF ASH GENERATED FROM ATDU PLANT AT SEMAKAU LANDFILL

We refer to your email application dated 4 Mar 2021.

2 Permission is granted for your company to dispose the **Ash** generated from **ATDU plant** at Semakau Landfill after the wastes have been properly dewatered. Please ensure that the waste sludge has been treated / tested to comply with our Leaching Test Criteria and rendered safe to be landfilled with other general wastes at Semakau Landfill.

3 **Please note that only licensed General Waste Collectors (GWCs) are allowed to a transport and dispose at Tuas Marine Transfer Station (TMTS).** If you are not a licensed GWC, you may engage one from NEA's website at <https://www.nea.gov.sg/docs/default-source/our-services/waste-management/list-of-all-general-waste-collectors.pdf>.

4 Please note that this permit takes effect on **1 Apr 2021** and until **31 Mar 2022**. You should apply for a renewal at least one (1) month before the expiry date.

NOTE: The TCLP test report submitted for landfill approval application shall only be tested/prepared by a SAC-SINGLAS accredited laboratory with TCLP accreditation certificate. You may check the list of laboratories from the Singapore Accreditation Council website at <http://www.sac-accreditation.gov.sg/index.asp>.

Yours faithfully

LIM JIA FANG
